Internationale Bibliographie der geistes- und sozialwissenschaftlichen Zeitschriftenliteratur

[International Bibliography of Periodical Literature in the Humanities and Social Sciences]

The bibliography IBZ has been the leading international and interdisciplinary reference work documenting academic periodical literature in the humanities, social sciences and related fields for over a hundred years. The spectrum of subjects covered is unrivalled: in no other database are academic journals from so many fields covered.

The IBZ serves the purpose of documenting and indexing the most recent scientific articles. The bibliography focuses on German and international periodicals of the humanities and social sciences but the interdisciplinary character – with deliberate intersections into the natural sciences – needs to be emphasized. Publications from 40 countries in more than 40 languages are taken into consideration.

The articles are analyzed for subject content. You will have instant access to a multiplicity of topics irrespective of the original language of an indexed article.

The database IBZ Online now lists more than 4.3 million journal articles from 11,500 journals. Every year some 132,000 entries are added. The database is updated weekly. IBZ Online includes abstracts for 450,000 articles as of November 2017. Journal issues from past years are also considered.
