First-hand information complemented by thoroughly researched editorial entries – this is the formula behind the singularly exhaustive survey of some 74,000 scholars currently working in academic institutions throughout German-speaking countries. Entries comprise relevant biographical data, addresses, details on fields of research and work, as well as a selected bibliography.

The online edition is updated constantly and allows targeted searching for criteria such as field of work etc. In addition to the printed edition it provides information regarding more than 11,000 academics which have been reported as deceased since 1996 as well as more than 18,000 archived entries no longer included in the printed edition.

- Entries are kept up-to-date through thorough research as well as through information provided by the listed scholars themselves.
- Reliable bio-bibliographic overview providing unique search possibilities
- Non-restrictive DRM – allows for an unlimited number of simultaneous users campus/institution-wide
